

## ANNUAL INDEX, 1957

### VOLUME 38

GUIDE TO PAGE NUMBERS: January, 1-50; February, 51-90; March, 91-128; April, 129-170; May, 171-222; June, 223-268; July, 269-312; August, 313-352; September, 353-384; October, 385-422; November, 423-458; December, 459-496

**ACID-RESISTANT** alloys, nickel-based, 95-97

'Adhesion and Adhesives,' by N. Pilpel, 410

Agitation in antibiotics fermentation, 2

Air pollution:  
conference report, 212  
control by 'oxycats,' 279

Algae as food source, 174

Alkylate, detergent, manufacture at Shell Haven, 372

'Aluminium and its Alloys in Chemical Engineering,' by E. Elliott, 19

'Aluminium v. Corrosion by Water,' by E. W. Jackson, 391

'Ammonia Pressure Leach Process Recovers Metals from Ore Concentrate,' 159

Ammonium sulphate production, new techniques, 325

Analysis, infra-red, 317-323

'Animal Blood, Useful Products from,' by L. M. Hirschberg, 188

Antibiotic fermentations and agitation, 2

Anti-Corrosion Campaign, Success for, 437

Argon purification, new process, 66

'Atomic Energy Advances' (British progress report), 357

'Atomic Energy, British Industry Prepares for Fresh Endeavours in,' 73

Atomic energy:  
British technical developments, 357-358

Calder Hall progress report, 93

fast-slow reactor, Harwell, 215

Hermes separator at Harwell, 105

in gas industry, 225

industry, corrosion in, 441

information for industry, 2

ion exchange in nuclear technology, 367

irradiated fuel processing, 171

isotopes track ocean sewage, 53

nuclear reactor design problems, 54

radiation techniques in coal industry, 359-363

radioactive waste disposal, 129

radiochemical laboratories, 462

South Africa, 353

Windscale accident report, 461

Automatic control, boredom and, 171

Australia:  
chemical and engineering research survey, 307-308, 345-346

I.C.I. chemical plants, 409

Automation in chemical industry, 272

**BARK** as soil builder, 323

Blood, manufacture of products from, 188-192

Boiler, new, at Stanlow refinery, 388

BOOKS REVIEWED:

'Calenders for Rubber Processing,' by H. Willshaw, 30

'Chemical Service in Defence of the Realm,' by W. G. Norris, 162

'Dechema-Werkstoff-Tabelle,' 30

'Electrostatic Precipitation in Theory and Practice, An Introduction to,' by H. E. Rose and A. J. Wood, 30

'Encyclopaedia of the Iron and Steel Industry, An,' by A. K. Osborne, 10

'Friction and Lubrication,' by F. P. Bowden and D. Tabor, 30

'Hydrogen Ions,' by H. T. S. Britton, 214

'Induction and Dielectric Heating,' 309

'Industry and Technical Progress,' by C. F. Carter and B. R. Williams, 223

'Oil Fuel Applications,' by A. T. Henley, 30

'Petroleum and its Products,' by J. H. van der Have and C. G. Verver, 214

'Pilot Plants, Models and Scale-up Methods in Chemical Engineering,' by R. E. Johnstone and M. W. Thring, 407

'Principles of Physical Metallurgy and Alloys Series in Physical Metallurgy,' by M. C. Smith, 214

'Protective Painting of Structural Steel,' by F. Fancutt and J. C. Hudson, 309

'Quantitative Chemical Analysis,' 30

'Research Reactors,' 214

'Transport Processes in Applied Chemistry,' by R. C. L. Bosworth, 309

Boron, new applications, 225

Boron tribromide, 173

British Chemical Plant Manufacturers' Association's Annual Dinner, 474

'Building Costs in the Chemical Process Industries,' 213

Bursting discs, new manufacturing deal in Britain, 52

'Butanols Production by Carbonylation,' 260

Calcium nitrate, Dutch evaporation process, 270

'Canada's First "Silvichemical" Goes into Production,' by J. Grindrod, 373

Canadian nickel expansion, 22

Carbohydrates, synthesis of, 270

Carbon black projects, U.S., 354

'Catalyst Factory,' 430

Catalysts, desulphurisation, new, 448

'Cathodic Protection for the Chemical Industry,' by C. L. Wilson, 394

Cathodic protection, graphite anodes for, 346

Cattle food from blood, 189

'Caustic Soda, Safety in Handling,' by N. L. Evans, 175

Caustic soda:  
Mathieson mercury cells, 173

production in Cheshire, 31-34

'Centrifuging,' by E. Broadwell, 432, 468

Ceramic production, materials handling system, 155

Cetyl alcohol in water evaporation experiments, 130

'Chemical and Engineering Research in Australia,' 307, 345

'Chemical Engineering and the Clean Air Problem,' 212

'Chemical Engineers for Tomorrow,' 185

Chemical engineering:  
careers in, 92

education:  
Birmingham symposium, 185-187

broadening, 460

in U.S., 1

Prof. Newitt's comments, 257-258

urgency of problems, 51

New World's needs, 269

research, D.S.I.R. report, 355

CHEMICAL ENGINEERING REVIEWS:  
'Centrifuging,' by E. Broadwell, 432

'Crystallisation,' 324

'Filtration,' by H. K. Suttle, 59

'Metallurgy,' by H. A. Holden, 15

'Mixing,' by D. F. Riley, 283

'Size Reduction,' by R. V. Riley, 229

Chemical industry:  
accident figures, comment, 51

capital spending increase in Britain, 91, 474

capital spending, U.S., 448

## Chemical industry (contd.):

- Europe:
  - progress review, 63-65
  - growth of, 131
- India, heavy chemical projects, 131
- U.S.:
  - capital expenditure, 448
  - manpower and, 171
- Chemical Inspectorate, British, 162-164
- 'Chemical Plant Parade in Paris,' 24
- Chemical plant industry progress, 474-475
- 'Chemistry, Defence and Industry,' 162
- Chemistry and humanity, 91
- Chile, nitrate developments, 386
- 'Chinese Advances in the Synthesis of Liquid Fuels,' by Chang Ta-Yu *et al.*, 403
- 'Chlorine, Economical Production of,' 31
- Chlorine:
  - dioxide water treatment, 34
  - from waste hydrogen chloride, 131
  - Mathieson mercury cells, 173
- Chocolate manufacture, chemical engineering in, 271
- Cleaner, chemical, for tankers, 167
- 'Cleaning Operations,' by H. Allen, 102
- Coal industry, radiation techniques in, 359-363
- Coal-tar, industry, hydrogenation in, 313
- Coke ovens, Ravenscraig, 455
- Coking experts visit U.S., 385
- Company organisation, heavy chemicals, 271
- Computers:
  - fractionating column control, 385
  - in chemical engineering, 3
  - oil refinery installation, 94
- Construction work, speedy, in Canada, 132
- Cooling, flash, 356
- Corrosion:
  - by water, aluminium and, 391-393
  - cathodic protection, 346, 394-395
  - chemical engineering design, 385
  - Convention:
    - abstracts, 438
    - Dinner, 437
  - Exhibition, illustrated preview, 399
  - Leonard Hill Group anti-corrosion campaign, 271, 354, 385, 399-402, 437, 438-442
  - metals in plant construction, 396-398
- COST INDICES, C.P.E.:
  - building costs in the chemical process industries, 213
  - chemical process equipment:
    - introduction and comparison with construction costs, 139, 213
    - monthly averages 1954-57, 139
    - monthly index figures, 213, 261, 309, 347, 375, 414, 455, 467
  - construction of chemical plant:
    - American and British cost comparison, 71
    - annual averages 1945-56, 113
    - comparison with process equipment costs, 213
    - complete index for 1956, 113
    - data survey 1926-56, 29

## COST INDICES, C.P.E. (contd.):

- monthly index figures, 29, 71, 113, 139, 213, 261, 309, 347, 375, 414, 455, 467
- personnel requirements in process industries, 261
- Cryogenic engineering, vessels, 354
- Crystal harder than diamonds, 92
- 'Crystallisation,' 324
- Cyclone dust separator, new Indian, 355

## DEMISTERS, knitted mesh in, 331-332

- 'Distillation Columns, Transient Behaviour of,' 110

## Distillation:

- column design and heat transfer, 172
- computer control fractionating column, 385
- Drawings, engineering, how to read, 95-97

- 'Drying Equipment, Correct Selection of,' by Leo Walter, 444

- D.S.I.R. research, report, 355

- Dust separator, cyclone, new Indian, 355

## 'EBONITE as a Material of Construction for Chemical Plant,' 133

- Efficiency, plant, Esso suggestion scheme, 132

- Effluent experts at chemical works, 316

- Effluents, sewage disposal difficulties, 93

- Electric energy from fuel cells, research, 3

- Electricity, factory costs, 172

- Element 102, discovery, 314

- 'Engineering Drawings, How to Read,' by D. V. Pridham, 98, 140, 194, 235

- 'Engineering, Let's Look At,' 342-344

- Equilibrium flash slide-rule, 173

- European Free Trade proposal, 459, 474, 475

- 'Europe's Chemical Industry, Progress in,' 63

- 'Explosion Risks in Industry,' by A. R. Myhill, 135

- Explosions, venting for, 356

- Ethylene oxide derivatives project, 386

## Extraction:

- countercurrent, 435
- liquid-liquid, 284

## FERTILISER:

- consumption, world, 173
- from blood, processes, 188-192
- from slag, Indian research, 94
- granulation developments, 460
- industry, competition in, 92

- Fibre metallurgy, 130

- Fibres, synthetic filtration properties, 4

- 'Filtering Amines as an Aid to Heat Transfer,' by T. B. Fielden, 463

- 'Filtration,' by H. K. Suttle, 59

- Filtration, Terylene in, 201

- Fischer-Tropsch synthesis, British research, 387

- Fish oils, coatings from, 315

- Fluid-bed reactor, ore roasting, 290

- Foam, chemical-resistant, 226

## France:

- natural-gas industry, 388
- oil and mineral prospecting, 54
- uranium resources, 89

## 'Freeze Grinding,' 259

## Fuel:

- additives, anti-corrosive uses, 441
- cells, research, 3
- efficiency, plastics manufacture and, 386
- high-energy, 353
- synthesis from air and water, 269

## GAS:

- absorption, research, 285
- casualties, labels for, 387
- cylinders, moving, 215
- from brown coal, 225
- in industrial processes, 112
- natural, French factory, 388
- separation, low-temperature, 476-478
- underground gasification in Russia, 459
- water-gas process, new, 165

## Germany, Western:

- chemical exports, 45
- nitrogen industry, 45

- Glue, properties and uses, 412

## Glycerine:

- aids polymerisation speed-up, 211
- glycerol problems, 314
- production, 4

- Granulation of fertiliser, 460

- 'Graphical Method for the Calculation of Simultaneous Heat and Mass Transfer,' by G. H. P. Bras, 427

- Graphite heat exchangers, 398

## HANDLING of Chemical and Medicinal Products, Speeding Up, 199

## 'Heat Transfer from Spiral Tubes,' 289

## Heat:

- and mass transfer, simultaneous, graphical calculation method, 427-429
- exchangers, graphite, 398
- transfer and distillation column design, 172
- transfer, filming amines aid, 463-464
- vulcaniser heat losses, 461
- Hungary, plastics project, 378
- Hydrogenation in coal-tar industry, 313

## INDIA, heavy chemical projects, 131

- 'Infra-red Absorption Analysis as a Process Tool,' by R. Quarendon, 317

## Institution of Chemical Engineers:

- Annual Dinner, 239
- new premises, 51
- Royal Charter for, 171

- 'Instrumentation of Chemical Processes,' 249

- 'Instrumentation of Silicone Production, Graphic,' by B. E. Adams, 252

- Instruments, scientific progress and, 270

- 'Ion Exchange, Contributions of, to Nuclear Technology,' by L. D. Roland, 367

## Ion exchange:

- resin, new U.S., 448
- waste recovery, 314

- Iron ore reduction with hydrogen, 4

- 'Isomerisation of Light Naphthas,' 75

- Israel, Negev development plan, 350

## JAPAN:

industrial production outlook, 87  
petrochemical industry, 139  
synthetic rubber production, 350

## 'KNITTED Mesh in Demister Design,' 331

Kyanite and sillimanite from refuse, 54

## LABELS for gas casualties, 387

Lampblack factory, 36

### Leaching:

ammonia pressure, 159

in metal recovery, 226

Liquid fuels, synthesis, Chinese advances, 403-407

'Low-temperature Gas Separation in Industry, Advances in,' 476

'Lubricating Oil, Principles of Refining,' by A. Doll-Steinberg, 291, 327

## MATERIALS handling, Winthrop Laboratories system, 199-200

'Mechanical Handling System for High Alumina Ceramic Production, New,' 155

'Metallic Materials of Construction,' by M. Birkhead, 396

'Metallurgy,' by H. A. Holden, 15

### Metals:

and alloys, selection of corrosion-resistant, 439

availability, 1

sprayed coatings, 440

Mining operations, chemicals in, 226

'Mixing,' by D. F. Riley, 283

### Models, engineering:

examples of uses, 238-239

new technique, 224

save design costs, 236

## NAPHTHAS:

purification, 260

isomerisation of, 75

Natural gas, Italian utilisation, 4

Natural resources, conservation of, 313

### Neoprene:

containers for polythene, 130

gas scrubber lining, 270

'New Outlook in Chemical Engineering Education,' by Prof. D. M. Newitt, 257

'Newsprint from Hardwoods,' 69

'Nickel-based Alloys in the Chemical Industry, the Role of Special,' 95

### Nickel:

alloys, welding and fabrication, 288

Canadian expansion, 22

sulphate from catalyst waste, 310

Nitrate developments in Chile, 386

### Nitrogen:

dioxide and nitrore, 27

German industry, 45

purification, large-scale, 198

NOMOGRAMS, by D. S. Davis:

'Densities of Aqueous Solutions of Sodium Sulphide,' 443

'Densities of Carbonated Aluminate Solutions,' 35

'Low-range Solubilities of Sulphur Dioxide,' 193

### NOMOGRAMS (contd.):

'Solubility of Water in Hydrocarbons,' 341

'Specific Gravity of Water as a Function of Temperature,' 66

'Vapour Pressures of Alkali Chlorides and Bromides,' 479

'Viscosities of Concentrated Carbonated Aluminate Solutions,' 234

'Viscosities of Dilute Carbonated Aluminate Solutions,' 156

'Viscosity of Liquid Ammonia,' 366

'Viscosity of Liquid Methyl Chloride,' 408

## OIL-GAS, Segas units for East Germany, 315

Oleines and stearines, solvent separation, 280-282

Oxygen production, 476

## PAINTS and anti-corrosion, 442

### Paper:

products from poplar, 295

research, Canada, 256

### PATENT CLAIMS (BRITISH):

alkyd resins, 76

aluminium and beryllium organic compounds, 116

beryllium treatment, 170

carbon for filtration and separation, 50

carbon black flow properties improved, 170

cellulose chlorination, 170

corrosion inhibitors, 170

cyclone dust separator, 116

deacidification of ammoniacal scrubbing liquid, 76

Distillation apparatus with stationary vanes, 170

distillation bubble tray, 76

drying chemicals, paint pigments, etc., 76

dust extractor, 50

ethyl acetate distillation, extractive, 170

### filter:

rotary suction drum, 50

vacuum, 50

fluidising acid sludges, 76

fluid-treatment apparatus, 116

fractionation or extraction apparatus, 116

glass, etc., materials, 170

heat and soluble substance exchanger, 50

### heat exchanger:

construction, 170

flue gas, 50

heat-transfer system, 170

ion-exchange resins, 170

naphthalene purification, 76

### phenol:

purification, 76

production, 116

plasticised compositions, 50

plutonium separation, 170

polymerisation processes, 50, 116

reaction vessels, pressure, 76

mixer, powder, 76

### PATENT CLAIMS (BRITISH) (contd.):

#### separation:

centrifugal, 170

gaseous mixtures, 116

mineral, 76

servo-mechanism, liquid-operated, 50

styrene, polymerisation, 170

styrene/butadiene copolymers, manufacture, 116

temperature control, catalytic reactions, 76

titanium or zirconium production, 170

titanium, surface hardening of, 116

titanium-clad steel, 76

tube joint, 50

valve, control, for chemical plant, 170

#### valve:

filter plant, 76

viscous liquids, 170

vessel, hot corrosives, 76

viscometer, 76

'Pentachlorophenol, Hazards in Handling,' by H. Allen, 28

### Petroleum:

chemical engineering and, 224

drilling mud dispersant, manufacture, 373

lubricating oil refining, 291-294, 327-331

pipeline, Trans-Iranian, 215

#### products:

centrifugal separation, 435

pumping, 364

Sahara deposits, 54

Phenol from waste liquors, 36

'Pipeline Planning, Installation and Care,' by Leo Walter, 72

Pipeline, Trans-Iranian, 215

### Pipes:

buried, protection of, 440

stainless-steel construction, 9

thermoplastic, 145-146

'Plastics as Materials of Construction for Chemical Plant,' 273

### Plastics:

Bakelite resins, reinforcements for, 273

bellows pump, PTFE, 273

British export record, 91

chemical engineering uses, 269

coatings, 440

glass-fibre reinforced, for corrosive duties, 274

pipe and fittings, 275

pipe unions, PVC, 274

polytetrafluoroethylene, uses, 92

PVC, rigid, in metal finishing industry, 274

thermoplastics in chemical plant, 275-279

tubing, PTFE thin-walled, 273

vinyl resins in chemical plant construction, 439

'Platinum Metals in the Chemical Industries,' by J. M. Pirie, 11

Potash, Saskatchewan deposits, 448

Pressure drop research, 462

'Pulp Products from Poplar,' by J. Grindrod, 295

Pulp, rayon, South African factory, 157-158

Pulp and paper research, new Canadian organisation, 256

14  
2 P.C.  
Pump bellows, PTFE, 273  
'Pumping Petroleum Products,' 364

## 'RADIATION Techniques in the Coal Industry,' by R. J. S. Jennings, 359

Rambush, Dr. N. E., obituary, 224  
'Rayon Pulp from Wood,' 157  
Refractive index of liquids at elevated temperatures, 36  
Refractory linings from refuse, 54  
Rubber-metal debonding, 371  
Rubber, synthetic, new Dunlop plant, 67-68  
Russia, engineering training and incentives, 129

## 'SAFETY valves in the Chemical Industry,' by A. E. Williams, 106

Safety:  
caustic soda handling, 175  
chemical works, German comments, 51  
in cleaning operations, 102  
explosion hazards, 135-138  
pentachlorophenol handling, 28  
static hazards, 53

Salon de la Chimie, illustrated review, 24-26

Silicone production, instrumentation, 252

'Silvichemical' manufacture, 373-374

'Size Reduction,' by R. V. Riley, 229

Slag, enrichment of, 94

Slide rule, equilibrium flash, 173

Soda ash storage system, U.S., 387

'Sodium Silicate Expansion,' 465

'Solvent Separation of Oleines and Stearines,' 280

South Africa, atomic energy, 353

'South African Phosphate Plant,' 240

Spectrophotometers, developments, 317-321

'Stainless Steel from the User's Point of View,' by H. J. Wilson, 5

Stainless steel:

austenitic, stress corrosion, 181-184

uses and problems, 315

Standardisation problems, 225

Static electricity hazards, 53

Stearines and oleines, solvent separation, 280-282

Steelworks, by-product recovery at, 455

'Stress Corrosion in Austenitic Steel Equipment, Avoidance of,' by C. Edeleanu, 181

Sugar-cane wax, 226

'Sugar from Cane,' by C. D. H. Vernon, 55

Sulphite waste liquor evaporation, new method, 227-228

'Sulphur from Sewage Sludge,' by J. Grindrod, 111

Sulphuric acid recovery in pickling process, 174

'Swiss Method for Evaporating Sulphite Waste Liquor, New,' 227

'Synthetic Rubber for Tyres,' 67

'Synthetic Vitamin A,' by R. G. Sims, 103

TANTALUM and zirconium, 389-390

Technological progress in Britain, 223  
Telephone system, I.C.I. Plastics Division, 132

Terylene in filtration processes, 201

'Thermoplastic Pipe in Industry,' by R. L. H. Damerham, 145

'Thermoplastics in Chemical Plant,' by S. G. Evans, 275

'Three-Dimensional Scale Models Help Designers,' by Leo Walter, 238

Tin coating, bright finish, 172

Tin from scrap, 169

Titanium:

chemical plant uses, new, 23

in chemical engineering, 314

metal coatings for, 144

## UNITED STATES:

chemical engineering in, 1

chemical industry manpower, 171

chemical processes in Europe, 131

coking in, 385

industrial and coal-tar chemicals, 52

Uranium refining process, Japan, 87

U.S.S.R., engineering training, 129

VACUUM cooling, 356

Valve control by temperature difference, 2

Valves, safety, in chemical industry, 106

Vegetable oil, centrifuging, 468

Venezuelan oil refinery expansion, 482

Ventilators, fusible-link, 344

Venting for explosions, 356

Vitamin A, large-scale synthesis, 103

Vulcaniser heating problem, 461

## WATER:

evaporation, Nigerian reservoir experiments, 130

treatment, chlorine dioxide, 34

Wax from sugar cane, 226

'Welding and Fabrication of High-Nickel Alloys,' 288

Welding:

laboratories, 316

plates for nuclear reactors, 358

'ZIRCONIUM and Tantalum,' by G. L. Miller, 389

Zirconium recovery research, 3
